## Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) From CRC Press

The preparation of sterile products using aseptic processing is considered perhaps the most critical process in the pharmaceutical industry and has witnessed continual improvement over the last half century. New approaches that have transformed classical aseptic production methods are appearing almost daily. This book reviews emerging technologies for aseptic processing that will markedly reduce the level of contamination risk for sterile products and includes coverage on:

- The use of isolator and barrier concepts for aseptic processing and assembly.
- The application of robotics as an alternative to gowned personnel.
- The increasing reliance on automation to minimize or eliminate operator intervention.
- The design, operational, monitoring and compliance changes necessary for success with advanced aseptic processing.

Advanced Aseptic Processing Technology is an essential reference for anyone working with sterile products, and is recommended for individuals in manufacturing, compliance, regulatory affairs, microbiology, environmental monitoring, sterility testing, sterilization, validation, engineering, development, facility and equipment design, component and equipment suppliers, automation, and robotics.

### **Editorial Review**

#### **About the Author**

James Agalloco is President of Agalloco & Associates. Since the formation of Agalloco & Associates in 1991, Jim has assisted more than 100 firms in the areas of validation, sterilization, aseptic processing and compliance. . He is a past President of the Parenteral Drug Association and a member of United States Pharmacopeia's Microbiology and Sterility Assurance Expert Committee since 2005. He has authored or co-authored 43 book chapters and over 100 papers, and has lectured extensively on process validation, aseptic processing, sterilization and isolation technology at various industry meetings, domestically as well as internationally. He also co-edited the book Validation of Pharmaceutical Processes, 3<sup>rd</sup> edition, Informa Healthcare, 2007.

James E. Akers Ph.D. is President and Co-Owner of Akers Kennedy & Associates and a Technical Consultant to Shibuya Kogyo, Co. LTD. Dr Akers received his BA in Biology from the University of Kansas in 1971 and his Ph.D. in Medical Microbiology from the University of Kansas, School of Medicine in 1976. He is past president of the Parenteral Drug Association (PDA) and has participated on many PDA Task Forces. He has written over 100 articles and 28 book chapters on subjects including aseptic processing, validation, biologics manufacturing, isolation technology, and environmental monitoring. Dr Akers is a Chairman of the Microbiology and Sterility Assurance Committee of Experts for the United States Pharmacopeia and has 35 years of experience working in, evaluating and providing design input for clean environments used in research and manufacturing applications.

### **Users Review**

#### **From reader reviews:**

##### **Valerie Wright:**

The book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) gives you the sense of being enjoy for your spare time. You can use to make your capable considerably more increase. Book can to be your best friend when you getting stress or having big problem together with your subject. If you can make looking at a book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) for being your habit, you can get considerably more advantages, like add your personal capable, increase your knowledge about a few or all subjects. You can know everything if you like available and read a e-book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences). Kinds of book are a lot of. It means that, science e-book or encyclopedia or others. So , how do you think about this book?

##### **Omar Stewart:**

The book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) can give more knowledge and also the precise product information about everything you want. So just why must we leave the good thing like a book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical

Sciences)? A few of you have a different opinion about publication. But one aim that book can give many details for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or details that you take for that, you may give for each other; you are able to share all of these. Book Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) has simple shape however you know: it has great and massive function for you. You can look the enormous world by available and read a e-book. So it is very wonderful.

**Tamara Evans:**

The book untitled Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) contain a lot of information on it. The writer explains the woman idea with easy method. The language is very simple to implement all the people, so do not really worry, you can easy to read it. The book was written by famous author. The author will take you in the new period of time of literary works. You can read this book because you can please read on your smart phone, or program, so you can read the book inside anywhere and anytime. In a situation you wish to purchase the e-book, you can open up their official website and also order it. Have a nice go through.

**Gary Campbell:**

You could spend your free time to see this book this book. This Advanced Aseptic Processing Technology (Drugs and the Pharmaceutical Sciences) is simple to create you can read it in the playground, in the beach, train in addition to soon. If you did not include much space to bring the printed book, you can buy the e-book. It is make you easier to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.
