## **Editorial Review**

### **Review**

“Strengths include presentation of therapy scenarios; focus on one family going through the therapy to demonstrate the stages of therapy and the stages of family life; real life experiences of the Salazar family members (students get inducted into this and usually ‘read ahead’ of what is assigned, something not normally done!).”

*William Quinn, Clemson University*

“The Inside Family Therapy book is perfect. What is so very impressive about the content and the writing style is how Mike Nichols weaves and threads ways of thinking as he sits with this family, along with specific skills he utilizes in his work with them. It allows students to see and experience what is going on within Nichols and how that is played out in what he says and does with the family. This is not an easy thing to do with the written word (except in novels) but he does it so very well. It also leads to much greater self awareness on the part of the students.

*Robert Jackson, University of Iowa*
