### **Editorial Review**

#### **Review**

"A breakthrough book in three different fields--sociology, psychology, and the rhetoric of inquiry...Beautifully written and, as suits the topic, engagingly argued. Arguing and Thinking brings together the two fragments of our broken culture. It's science and humanism combined, as of course they should be." Donald McCloskey, University of Iowa

#### **From the Back Cover**

Billig's witty and original book examines argumentation and its psychological importance in human conduct, and traces the connections between ancient rhetorical ideas and modern social psychology.
