The CD-ROM contains a total of 60 minutes of video and has several reflective questions for each ethical dilemma presented. Each module begins with a Pre-Inventory that gives preliminary information and a self-assessment that gauges the student's knowledge in the subject area. Students are then asked to select a segment and watch the role play of the ethical dilemma and answer several reflective questions. After answering the questions, the student watches a classroom discussion that brings up pertinent issues and examines the approach taken by the counselor. At the completion of each module, there is a Post-Inventory that assesses the student's competence after completing the material in the module. After each segment, the student can save, print or email their answers to the reflective questions.
