Instant OpenNMS Starter By Ghislain Hachey

A short, fast, and focused guide on OpenNMS that delivers immediate results

Overview

- Learn something new in an Instant! A short, fast, focused guide delivering immediate results
- Learn something new with OpenNMS in an instant
- Be the first to know when network issues arise through notifications
- Easily discover nodes on your network and start monitoring right away

In Detail

OpenNMS is an enterprise-grade network monitoring platform built following the open source model by a strong community of professional network operators. It is proven to scale to hundreds of thousands of nodes and rivals even the best proprietary competing products in terms of features. Equally, it is well suited to manage small network infrastructures with relative ease, which makes it an ideal choice from the start.

Instant OpenNMS Starter helps you get to grips with OpenNMS, understand what it is and what it can do for you, and then get to work with the most important features and tasks. It aims to make network and systems administration more exciting and inspires you to use this professional grade system in your own unique ways.

At a time when the number of technology start-ups is increasing at an exciting rate, Instant OpenNMS Starter is the ideal introduction to a tool that will help you maintain the highest possible level of service.

This book provides a lot in a very short amount of space. You will be given everything you need to get started with a reasonably secure installation. In minutes, you will be monitoring as little or as many nodes on your network as you wish.

You will be armed with the knowledge and inspiration necessary to take network management to the next level.

What you will learn from this book

- Find out how to benefit from using OpenNMS with little effort right from the start
- Learn how you can extend the capabilities of OpenNMS through the use of SNMP
- Tune OpenNMS to your specific network monitoring needs
- Generate custom reports for the technical team, management, or clients
- Chart performance data for your important services or any other network metric
- Learn to configure thresholds, alarms, and notifications

Approach

Get to grips with a new technology, understand what it is and what it can do for you, and then get to work with the most important features and tasks. A starters' guide to learning OpenNMS with ease, with a focus on immediate results.

Who this book is written for

Instant OpenNMS Starter is for network administrators of any level with a slight focus on the novice that would enjoy a swift glance at what OpenNMS has to offer. It assumes the reader will have knowledge of basic network operations and protocols such as the Internet Protocol Suite.

Editorial Review

About the Author

Ghislain Hachey

Ghislain Hachey is an Electrical Engineer, with a Masters of Information Systems, and is a Technology Specialist by experience. He is Canadian, but has spent the past 10 years working in development in the South Pacific, advocating the use of free software. He worked at the grass roots level on pioneer projects with the goal of improving access to communication and education in remote, rural areas of the Solomon Islands. He then moved on to work in the private sector in Vanuatu, where he is largely responsible for the establishment of the first privately and locally owned small data center and also a distance and flexible learning institution.

He currently oversees all technical operations of Computer and Network Services (**www.cns. com.vu**), the leading Information Technology service provider operating in Vanuatu. Find him on his personal website www.ghachey.info or on LinkedIn.

Users Review

From reader reviews:

Victoria Williams:

Playing with family in a very park, coming to see the marine world or hanging out with good friends is thing that usually you may have done when you have spare time, after that why you don't try factor that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Instant OpenNMS Starter, you may enjoy both. It is excellent combination right, you still wish to miss it? What kind of hangout type is it? Oh come on its mind hangout folks. What? Still don't obtain it, oh come on its called reading friends.

Mary Kenney:

This Instant OpenNMS Starter is fresh way for you who has intense curiosity to look for some information because it relief your hunger associated with. Getting deeper you into it getting knowledge more you know otherwise you who still having little digest in reading this Instant OpenNMS Starter can be the light food in your case because the information inside that book is easy to get by means of anyone. These books build itself in the form that is reachable by anyone, yep I mean in the e-book contact form. People who think that in e-book form make them feel tired even dizzy this reserve is the answer. So there isn't any in reading a guide especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss the idea! Just read this e-book variety for your better life as well as knowledge.

Chad Jones:

In this particular era which is the greater person or who has ability to do something more are more important than other. Do you want to become certainly one of it? It is just simple approach to have that. What you should do is just spending your time little but quite enough to enjoy a look at some books. One of many books in the top checklist in your reading list is Instant OpenNMS Starter. This book that is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking right up and review this guide you can get many advantages.

George Hale:

As we know that book is significant thing to add our knowledge for everything. By a guide we can know everything we want. A book is a group of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This book Instant OpenNMS Starter was filled with regards to science. Spend your spare time to add your knowledge about your research competence. Some people has various feel when they reading some sort of book. If you know how big benefit from a book, you can sense enjoy to read a e-book. In the modern era like currently, many ways to get book that you wanted.
