The Secret History of Consciousness: Ancient Keys to Our Future Survival

By Meg Blackburn Losey Ph.D.

What do the so called sacred sites all over the world have to do with consciousness? Is it possible that the ancients left us keys to who we really are and what we are capable of? What does sacred geometry really have to do with these sites, our consciousness and even the symbology of world religions? How does all of this tie together to literally solve the meaning of the Mayan Calendar? *The Secret History of Consciousness* answers these questions and more as the author simply and logically relates the tangible with the intangible from reality on the earth plane to worlds far beyond. As she weaves the facts together, the author shares her intimate story of finding her way out of third dimensional reality and into worlds beyond where she met and interacted with her "Guys" as she lovingly calls them, as they taught her about life, consciousness, the sciences, multi-dimensional reality, star gate systems, worm holes, genetic and conscious evolution and so much more. Finally, a book that pulls metaphysical reality into a clear and comprehensible set of information in conjunction with the sciences and tangible proof that will blow your mind.

Through a series of personal crises, seekings, and synchronistic events, Dr. Meg Losey learned to channel wisdom from Masters from the past, the present, and off planet and learned this basic truth: "Reality isn't happening to us--we are happening to reality. We really do create our experiences, and we can change them at any time by changing our perceptions. We are the consciousness within the living One."

In this new book, she reveals the secrets that were known to the ancients but lost to the modern world. Secrets about consciousness and the relevance of sacred sites from around the globe. She uncovers the true meaning of the Mayan Calendar and links sacred geometry, the Kaballah, the Flower of Life, the Pyramids, Atlantis, Lemuria, and more to reveal that these ancient secrets show us that we are all unlimited beings of creation. Dr. Meg invites us to open our minds and hearts to the meaning of our shared and hidden history and offers simple meditations that will allow each and every one of us to become conscious of the change we are creating together.
