Development Across the Life Span (6th Edition) By Robert S. Feldman Ph.D.

Offers a strong balance between research and applications. For chronologically organized courses in Human Development/Lifespan Development.

Robert Feldman offers students a chronological overview of physical, cognitive, social, and emotional development—from conception through death with his text *Development Across the Lifespan*. The text presents up-to-date coverage of theory and research, with an emphasis on the application of these concepts by students in their personal—and future professional—lives. The text taps into students' inherent interest in the subject of human development, encouraging them to draw connections between the material and their own experiences.

This book is available with MyDevelopmentLab, which includes a full eText, videos, self-tests, flashcards, and MyVirtualChild- the interactive simulation which allows you to raise a virtual child from birth to age 18, and monitor the effects of your parenting decisions. MyDevelopmentLab does not come automatically with the text so please be sure you check to ensure that an access code is included before placing your order! (The book by itself has a different ISBN number than the book + MyDevelopmentLab.) You can also purchase a MyDevelopmentLab access code online at www.mydevelopmentlab.com

Editorial Review

Review

Craig Outhouse - Western New England College

The strength of the text is the integration of text, graphics, with current research. Additionally, the readability makes the book accessible to a range of learners. Additionally, the use of hot topics (autism MMR vaccine debate) makes the reader even more interested in the text. Feldman has an uncanny ability to make dry (but important) research fun to read. He is both an advocate for scholars and scholars in training. Rather than simply tell the reader what they should think, Feldman challenges them with higher order thinking questions that allow for a much stronger understanding and appreciation of the topics.

Barb Ramos - Simpson College

I believe this is a very strong text. I have used it repeatedly and it gets great reviews from my students. It is readable and interesting even for reluctant readers. It is visually pleasing. The content is clearly expressed and organized. This is the best text that I've used for this course.

Jo Ann Armstrong - Patrick Henry Community College

My students seem to read the material and to understand it and to be challenged to ask questions or comment on what they have read. Very thorough and yet does try to be as brief as possible on a wide variety of topics. Nice layout with wide margins and nice colored photographs.

Sindy Armstrong - Ozarks Technical College

It is easy for students to use which is something I am always looking for.

Stephanie Babb - University of Houston-Downtown

The greatest strengths are the well-written, comprehensible text, and also the colorful pictures. The chapters are also well-organized.

Verneda Hamm Baugh - Kean University

The greatest strengths are the writing style, actual layout of the book, and the broad discussion of racial/gender/cultural diversity incorporated in the book beyond the Developmental Diversity boxes.

Cynthia Calhoun - Southwest Tennessee Community College

I think that students can understand the material with the tables, definitions, and inserts such as "From Research to Practice" to support the narrative.

Cara Cashon - University of Louisville

Well-organized, yes. Yes, there are good examples. The figures included are very helpful.

Donnell Griffin - Davidson County Community College

The ongoing use of CURRENT research from HIGH QUALITY sources (and pointing out what those are) is VERY GOOD! It is comprehensive and balanced. It also teaches students how to critically assess the usefulness of quality research and information.

Sandra Hellyer - Ball State University

The chapters are clear, interesting, and well-organized. The greatest strengths of this text is Feldman's writing style.

Donnell Griffin - Davidson County Community College

Feldman provides a very balanced, data based presentation of Human Development. The material is high quality and covers the diversity of human experience well.

Lisa Brown - Frederick Community College

I love the layout and organization!!

From the Back Cover

This book is available with MyDevelopmentLab, which includes a full eText, videos, self-tests, flashcards, and MyVirtualChild- the interactive simulation which allows you to raise a virtual child from birth to age 18, and monitor the effects of your parenting decisions.

About the Author

Robert S. Feldman is Professor of Psychology and Associate Dean of the College of Social and Behavioral Sciences at the University of Massachusetts at Amherst. A recipient of the College Distinguished Teacher Award, he teaches psychology classes ranging in size from 15 to nearly 500 students. During the course of more than two decades as a college instructor, he has taught both undergraduate and graduate courses at Mount Holyoke College, Wesleyan University, Virginia Commonwealth University, in addition to the University of Massachusetts.

Professor Feldman, who initiated the Minority Mentoring Program at the University of Massachusetts, also has served as a Hewlett Teaching Fellow and Senior Online Teaching Fellow. He initiated distance learning courses in psychology at the University of Massachusetts

A Fellow of both the American Psychological Association and the Association for Psychological Science, Professor Feldman received a B.A. with High Honors from Wesleyan University and an M.S. and Ph.D. from the University of Wisconsin-Madison. He is a winner of a Fulbright Senior Research Scholar and Lecturer award, and he has written more than 100 books, book chapters, and scientific articles. He has edited *Development of Nonverbal Behavior in Children* (Springer-Verlag), *Applications of Nonverbal Behavioral Theory and Research* (Erlbaum), and co-edited *Fundamentals of Nonverbal Behavior* (Cambridge University Press). He is also author of *Child Development*, *Understanding Psychology*, and *P.O.W.E.R. Learning: Strategies for Success in College and Life*. His books have been translated into a number of languages, including Spanish, French, Portuguese, Dutch, Chinese, and Japanese. His research interests include honesty and deception in everyday life and the use of nonverbal behavior in impression management, and his research has been supported by grants from the National Institute of Mental Health and the National Institute on Disabilities and Rehabilitation Research.

Professor Feldman loves music, is an enthusiastic pianist, and enjoys cooking and traveling. He has three

children, and he and his wife, a psychologist, live in Amherst, Massachusetts, in a home overlooking the Holyoke mountain range.

Users Review
