About the Author

John Farrar

John Farrar is a man who has a passion for pragmatic technology. He started working on computers in the late 70s and has watched the trends as closely as he watches the milestones. His work included programming on early computers, repairing military flight simulators in the navy, and working on web technology that helps people get business done. This work included building early commerce solutions for Apple, Brunswick Recreation, and Casio and working for a number of other companies along the letters of the alphabet. He is inspired and passionate about understanding the need before choosing the technology that answers the challenge. Over the years, John has worked on a couple of books for ColdFusion, multiple open source projects from early Fusebox, community participation with jQuery, and some frameworks he created on his own. He has spoken at about a dozen conferences over the years and worked on supporting local and online users as time has permitted. He has provided technical training from online courses, in person class instructions, and a number of great intern programmers that let him share their entrance into the world of writing software.
