

## Plurals and Events (Current Studies in Linguistics)

By Barry Schein

**Plurals and Events (Current Studies in Linguistics)** By Barry Schein

How do we make sense of sentences with plural noun phrases in them? In *Plurals and Events*, Barry Schein proposes combining a second-order treatment of plurals with Donald Davidson's suggestion that there are positions for reference to events in ordinary predicates in order to account for several of the more puzzling features of plurals without invoking "plural objects," with its attendant metaphysics, and also provide an absolute truth-theoretic characterization of the semantics of sentences with plurals in them. Schein's highly original argument should have significant impact on how natural-language semantics is done, with repercussions for philosophy and logic. The book opens with foundational arguments that the logical language should have four major features: reduction to singular predication via a Davidsonian logical form, a mereology of events, a logical syntax that allows the constituents of a Davidsonian analysis to be predicated of distinct events and separated from one another by other logical elements, and descriptive anaphors that cross-refer to the events described by antecedent clauses. A semantics for plurality and quantification is developed in the remaining chapters, which address some of the empirical and formal questions raised by the variety of interpretations in which plurals and quantifiers participate. Barry Schein is Assistant Professor of Linguistics at the University of Southern California.

To help you to see the represented of the world on this book.

##### **Patricia Mattox:**

That reserve can make you to feel relax. This book Plurals and Events (Current Studies in Linguistics) was vibrant and of course has pictures on the website. As we know that book Plurals and Events (Current Studies in Linguistics) has many kinds or category. Start from kids until teenagers. For example Naruto or Investigation company Conan you can read and believe you are the character on there. Therefore , not at all of book are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book to suit your needs and try to like reading this.

##### **Tara Reynolds:**

As a college student exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's soul or real their pastime. They just do what the instructor want, like asked to the library. They go to right

now there but nothing reading very seriously. Any students feel that looking at is not important, boring as well as can't see colorful pictures on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Plurals and Events (Current Studies in Linguistics) can make you sense more interested to read.
