If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

*For undergraduate Introductory Management Information Systems courses.
This package includes MyMISLab™.*

Helping Readers Succeed in Management Information Systems

As technology continues to change the way organizations do business, knowledge of MIS is critical. **Using MIS** shows readers how organizations use information systems to solve business problems every day. Illustrative cases, exercises, projects, and other aids ensure your readers connect concepts to everyday life. Unique guides in each chapter highlight themes in ethics, security, and other timely topics. The 2026? feature hypothesizes how the concepts, technology, and systems will change over the next decade to help readers anticipate changes in technology and think about how those affect business.

Every year brings important new technology to organizations and the **Ninth Edition** reflects these trends, providing the latest MIS content available, keeping your readers up to date and knowledgeable on how to apply emerging technologies to better achieve their organizations' strategies.

Personalize Learning with MyMISLab

MyMISLab is an online homework, tutorial, and assessment program designed to

work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

Editorial Review

About the Author

David Kroenke has many years of teaching experience at Colorado State University, Seattle University, and the University of Washington. He has led dozens of seminars for college professors on the teaching of information systems and technology; in 1991, the International Association of Information Systems named him Computer Educator of the Year. In 2009, David was named Educator of the Year by the Association of Information Technology Professionals-Education Special Interest Group (AITP-EDSIG).

David worked for the U.S. Air Force and Boeing Computer Services. He was a principal in the startup of three companies, serving as the vice president of product marketing and development for the Microrim Corporation and as chief of database technologies for Wall Data, Inc. He is the father of the semantic object data model. David's consulting clients have included IBM, Microsoft, and Computer Sciences Corporations, as well as numerous smaller companies. Recently, David has focused on using information systems for teaching collaboration and teamwork.

His text *Database Processing* was first published in 1977 and is now in its 13th edition. He has authored and coauthored many other textbooks, including *Database Concepts*, 7th ed. (2015), *Experiencing MIS*, 7th ed. (2017), *SharePoint for Students* (2012), *Office 365 in Business* (2012), and *Processes, Systems, and Information: An Introduction to MIS*, 2nd ed. (2015).

Randall J. Boyle received his Ph.D. in Management Information Systems from Florida State University in 2003. He also has a master's degree in Public Administration and a B.S. in Finance. He has received university teaching awards at Longwood University, the University of Utah, and the University of Alabama in Huntsville. He has taught a wide variety of classes including Introduction to MIS, Cyber Security, Networking & Servers, System Analysis and Design, Telecommunications, Advanced Cyber Security, Decision Support Systems, and Web Servers.

His research areas include deception detection in computer-mediated environments, secure information systems, the effects of IT on cognitive biases, the effects of IT on knowledge workers, and e-commerce. He has published in several academic journals and has authored several textbooks, including *Corporate Computer and Network Security*, 4th ed., *Applied Information Security*, 2nd ed., and *Applied Networking Labs*, 2nd ed.

Users Review
