Editorial Review

About the Author

Tom Tietenberg is the author or editor of eleven books (including **Environmental and Natural Resource Economics, Eighth Edition**, and **Environmental Economics and Policy, Fifth Edition**), as well as over one hundred articles and essays on environmental and natural resource economics. After receiving his PhD in economics from the University of Wisconsin at Madison in 1971, Tietenberg was elected President of the Association of Environmental and Natural Resource Economists (AERE) in 1987. He has consulted on environmental policy with the World Bank, the InterAmerican Development Bank, the Agency for International Development, and the Environmental Protection Agency, as well as several state and foreign governments. In 1992, Tietenberg spoke at the first Earth Summit in Rio de Janeiro, Brazil, and has lectured on sustainable development at many other conferences around the world. In 2006, he was designated one of six inaugural AERE Fellows. He is currently the Mitchell Family Economics Professor at Colby College, where his research focuses on the design and evaluation of economic incentive mechanisms for environmental protection and tradable permit systems for pollution control and fisheries management.

Lynne Lewis is Chair of the economics department at Bates College where she teaches microeconomics, environmental economics, natural resource economics, and valuation. Lewis received her PhD in economics from the University of Colorado in 1994 after finishing a two-year dissertation fellowship at the Environmental and Societal Impacts Group at the National Center for Atmospheric Research. Her dissertation received the Universities Council on Water Resources (UCOWR) Dissertation Award in 1995. Currently, she is working on a research grant focused on valuing the potential benefits from dam removals and river restoration. She has also worked extensively on the economics of transboundary water resources, tradable permits for pollution control and the valuation of environmental amenities and disamenities within watersheds and coastal zones. She currently serves on the Board of the Natural Resources Council of Maine, the Penobscot River Science Steering Committee, and the Advisory Board of Mitchell Center for Environment and Watershed Research. She received the Friend of UCOWR award in 2005.

Users Review

From reader reviews:

Robert Reynolds:
