## The Real Reasons Men Commit: Why He Will - or Won't - Love, Honor and Marry You By Joel D Block, Kimberly Dawn Neumann

I need my space. We need to slow down. I'm just not ready to settle down yet. Single women have heard all these excuses and more from the men in their lives. And with a growing number of people choosing not to marry at all, women who do want to get married are increasingly frustrated by men who, in the end, refuse to make that commitment. In this book, women will learn: how men really view commitment; what factors influence their decision to commit; the difference between cold feet and an intractable single-forever stance; which men are most likely to go the distance; strategies to persuade commitment-phobic men to take the chance on love and marriage; and more. With this book, women looking for commitment from their men can push them off the fence - and into the wedding chapel. Or, if they're found wanting, simply cut them loose with that other famous line: Maybe we should see other people.
