Smart Card Application Development Using Java By Uwe Hansmann, Martin S. Nicklous, Thomas Schäck, Achim Schneider, Frank Seliger

Smart cards play an increasingly important role in everyday life. We encounter them as credit cards, loyalty cards, electronic purses, health cards, ands as secure tokens for authentication or digital signatures. Their small size and the compatibility of their form with the magnetic stripe card make them ideal carriers of personal information such as secret keys, passwords, customization profiles, and medical emergency information. This book provides a guide for the rapid development of smart card applications using Java and the OpenCard Framework. It gives you the basic information you need about smart cards and how they work. A smart card provided with the book will help you to obtain first-hand experience.

Editorial Review

From the Back Cover
In todays world, smart cards play an increasingly important role in everyday life. We encounter them as credit cards, loyalty cards, electronic purses, health cards, ands as secure tokens for authentication or digital signature. Their small size and the compatibility of their form with the magnetic stripe card make them ideal carriers of personal information such as secret keys, passwords, customization profiles, and medical emergency information. This book provides a guide for the rapid development of smart card applications using Java and the OpenCard Framework. It gives you the basic information you need about smart cards and how they work. It shows in detail how to develop applications that use smart cards by guiding you through examples step by step. A smart card provided with the book will help you to quickly get some first hands-on experience.

Users Review

From reader reviews:

Lauren Barnett:

As people who live in the particular modest era should be update about what going on or info even knowledge to make all of them keep up with the era which can be always change and make progress. Some of you maybe can update themselves by reading books. It is a good choice for you but the problems coming to a person is you don't know what one you should start with. This Smart Card Application Development Using Java is our recommendation to make you keep up with the world. Why, because this book serves what you want and wish in this era.

Evita Young:

People live in this new day of lifestyle always try and and must have the free time or they will get great deal of stress from both way of life and work. So , if we ask do people have free time, we will say absolutely of course. People is human not really a robot. Then we question again, what kind of activity are there when the spare time coming to anyone of course your answer can unlimited right. Then ever try this one, reading guides. It can be your alternative inside spending your spare time, typically the book you have read is actually Smart Card Application Development Using Java.

Kathleen Blackwood:

In this age globalization it is important to someone to get information. The information will make you to definitely understand the condition of the world. The healthiness of the world makes the information better to share. You can find a lot of references to get information example: internet, classifieds, book, and soon. You will see that now, a lot of publisher in which print many kinds of book. Typically the book that recommended to you personally is Smart Card Application Development Using Java this e-book consist a lot of the information on the condition of this world now. That book was represented how do the world has

grown up. The vocabulary styles that writer use to explain it is easy to understand. The particular writer made some investigation when he makes this book. That is why this book acceptable all of you.

Debera Jessie:

A lot of e-book has printed but it takes a different approach. You can get it by online on social media. You can choose the most effective book for you, science, comic, novel, or whatever simply by searching from it. It is named of book Smart Card Application Development Using Java. You can include your knowledge by it. Without causing the printed book, it can add your knowledge and make anyone happier to read. It is most important that, you must aware about reserve.
