The Healing Power of Illness: Understanding What Your Symptoms Are Telling You By Ruediger Dahlke M.D., Thorwald Dethlefsen

This classic book, long out of print in English, challenges accepted ideas of illness by suggesting it's not an enemy to be fought. When you see your symptoms as bodily expressions of psychological or spiritual conflicts, you can use them as guides to inner work. You can respond to troubles with infection, allergies, respiration, digestion, skin, nervous system, heart and circulation, sexuality and pregnancy, even accidents, with practical actions that heal the heart and mind.

The authors are psychologists—one trained in spiritual traditions, the other in natural healing and psychotherapy. The goal of their archetypal or interpretative medicine is to help us see that just as every disease pattern expresses a certain content, every organ and every region of the body has a particular significance. The goal is that we can then build up a field of "contagious good health" and take control in finding our own life mission and path of development.

In the German-speaking world, Ruediger Dahlke's books have attracted a large following and have contributed to creating an ever-expanding consciousness for psychosomatic correlations and a holistic approach to medicine. There are over 200 translations of his books in 24 languages.

Editorial Review

About the Author

A doctor and psychotherapist since 1979, **Ruediger Dahlke** is the author of over forty books, including *Krankheit als Weg (The Healing Power of Illness)*, *Krankheit als Sprache der Seele (Illness As a Language of the Soul)*, *Krankheit als Symbol (Disease as a Symbol)*, *Frauen-Heil-Kunde (The Female Healing Arts)*, *Depression – Wege aus der Dunklen Nacht der Seele (Depression: Ways Out of the Dark Night of the Soul)* and *Seeleninfarkt (Breakdown of the Soul)*. He has established a holistic approach to psychosomatic medicine that extends into the mythical and the spiritual domains. In seminars and on tours, he leads participants into the world of spiritual imagery and motivates them to take responsibility for developing well-targeted life strategies. He is the founder of TamanGa, a healing center in Austria.

In Germany, Austria, Switzerland and Italy, Dr. Dahlke regularly gives presentations on topics such as the spiritual significance of disease patterns, conscious fasting, connected breathing, meditation, and the development of spiritual awareness, as well as providing corporate training seminars. He has presented his ideas on holistic medicine and spiritual philosophy in numerous newspaper and journal articles, and in TV and radio appearances. He has also offered seminars in the United States in conjunction with *The Intelligent Optimist* magazine. His goal is to support individuals along their path towards greater self-responsibility, self-determination and optimal health. His websites are www.dahlke.at and <http://www.mymedworld.cc/>.

Thorwald Dethlefsen was a German psychologist, an esotericist, and the author of several books, who died in 2010. He practiced hypnotherapy, past-life regression and reincarnation therapy.
