Getting Started in Non-Sterile Compounding Video Training Program (VHS and workbook) By CPh.T and Jason Sparks, AAS, BA, CPhT, PhTR, Karen Davis

"Getting Started in Non-Sterile Compounding" provides a well-paced and approachable introduction to: the most common drug delivery systems; essential compounding equipment; standard packaging forms, and developed in collaboration with skilled technician educators - who are also experienced certified technicians - to bring the most practical training tools possible. These videos make no assumptions about a viewer's prior knowledge, and uses sound educational design to introduce concepts plainly and clearly. Each 45 minute program presents topics in a logical sequence. The video program can be watched in its entirety or by topic to facilitate its use in multiple settings and to give instructors and facilities the flexibility to create their own teaching experience. Whether your training program is facility or school-based, you'll love the flexibility these programs provide. Instructors will have the capacity to go as fast or as slow as is required, tailoring the presentation of the material to the pace of instruction and the time limits of the class. Available in both DVD and VHS formats, each video is designed to be used with a companion workbook that has plenty of exercises and self-assessment questions to ensure your students and staff get the most out of their training time. We strongly encourage you to have a copy of the workbook for each trainee.
