**PowerShell in Depth** By Don Jones, Jeffery Hicks, Richard Siddaway

## Summary

*PowerShell in Depth, Second Edition* is the go-to reference for administrators working with Windows PowerShell. Every major technique, technology, and tactic is carefully explained and demonstrated, providing a hands-on guide to almost everything an admin would do in the shell. Written by three experienced authors and PowerShell MVPs, this is the PowerShell book you'll keep next to your monitor—not on your bookshelf!

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

## About the Book

A Windows admin using PowerShell every day may not have the time to search the net every time he or she hits a snag. Wouldn't it be great to have a team of seasoned PowerShell experts ready to answer even the toughest questions? That's what you get with this book.

*PowerShell in Depth, Second Edition* is the go-to reference for administrators working with Windows PowerShell. Every major technique, technology, and tactic is carefully explained and demonstrated, providing a hands-on guide to almost everything an admin would do in the shell. Written by PowerShell MVPs Don Jones, Jeffrey Hicks, and Richard Siddaway, each valuable technique was developed and thoroughly tested, so you'll be able to consistently write production-quality, maintainable scripts while saving hours of time and effort.

This book assumes you know the basics of PowerShell.

## What's Inside

- Automating tasks
- Packaging and deploying scripts
- Introduction to Desired State Configuration
- PowerShell security

- Covers PowerShell version 3 and later

## About the Authors

**Don Jones, Jeffery Hicks, and Richard Siddaway** are Microsoft MVPs, trainers, and administrators. Collectively, they've authored nearly three dozen books on PowerShell and Windows administration.

## **Editorial Review**

### About the Author

**Don Jones** is a Microsoft MVP, speaker, and trainer. He developed the Microsoft PowerShell courseware and has taught SQL Server, PowerShell, and other practical technologies to more than 20,000 IT pros. Don writes for TechNet Magazine and blogs for WindowsITPro.com. He is the creator of the Month of Lunches series that covers PowerShell, IIS, Active Directory, SCCM, SQL Server, and more.

**Jeffery Hicks** is a PowerShell MVP with 20 years of IT experience. Jeff works as an independent consultant, trainer, and author and he has taught PowerShell to IT Professionals all over the world. He writes the popular Prof.PowerShell column for MCPMag.com and is a weekly contributor to the Petri IT Knowledgebase. Jeff blogs frequently on PowerShell related topics at <http://jdhitsolutions.com/blog>.

**Richard Siddaway**, a PowerShell MVP, has been working with Microsoft technologies for over 22 years having spent time in most IT roles, including analyst-programmer, server administration, support, DBA, and architect. His interest in automation techniques, including automating job creation and submission on mainframes, started many years ago and he has been using PowerShell since the early beta versions.

## **Users Review**

### **From reader reviews:**

#### **Houston Boynton:**

Information is provisions for people to get better life, information these days can get by anyone at everywhere. The information can be a know-how or any news even an issue. What people must be consider when those information which is within the former life are hard to be find than now could be taking seriously which one would work to believe or which one often the resource are convinced. If you receive the unstable resource then you obtain it as your main information we will see huge disadvantage for you. All those possibilities will not happen in you if you take PowerShell in Depth as the daily resource information.

#### **Renee Chagnon:**
