### **A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics)**

By Raymond M. Smullyan

Written by a creative master of mathematical logic, this introductory text combines stories of great philosophers, quotations, and riddles with the fundamentals of mathematical logic. Author Raymond Smullyan offers clear, incremental presentations of difficult logic concepts. He highlights each subject with inventive explanations and unique problems.

Smullyan's accessible narrative provides memorable examples of concepts related to proofs, propositional logic and first-order logic, incompleteness theorems, and incompleteness proofs. Additional topics include undecidability, combinatoric logic, and recursion theory. Suitable for undergraduate and graduate courses, this book will also amuse and enlighten mathematically minded readers. 2014 edition.

About the Author

Raymond Smullyan received his PhD from Princeton University and taught at Dartmouth, Princeton, Indiana University, and New York's Lehman College. Best known for his mathematical and creative logic puzzles and games, he was also a concert pianist and a magician. He wrote over a dozen books of logic puzzles and texts on mathematical logic.

### Raymond Smullyan: The Merry Prankster

Raymond Smullyan (1919–2017), mathematician, logician, magician, creator of extraordinary puzzles, philosopher, pianist, and man of many parts. The first Dover book by Raymond Smullyan was *First-Order Logic* (1995). Recent years have brought a number of his magical books of logic and math puzzles: *The Lady or the Tiger* (2009); *Satan, Cantor and Infinity* (2009); an original, never-before-published collection, *King Arthur in Search of His Dog and Other Curious Puzzles* (2010); and *Set Theory and the Continuum Problem* (with Melvin Fitting, also reprinted by Dover in 2010). More will be coming in subsequent years.

In the Author's Own Words:

"Recently, someone asked me if I believed in astrology. He seemed somewhat puzzled when I explained that the reason I don't is that I'm a Gemini."

"Some people are always critical of vague statements. I tend rather to be critical of precise statements: they are the only ones which can correctly be labeled 'wrong.'" — Raymond Smullyan

### Users Review

From reader reviews:

**Amelia Brown:**

The book A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics) can give more knowledge and also the precise product information about everything you want. Why then must we leave the best thing like a book A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics)? Wide variety you have a different opinion about publication. But one aim that will book can give many info for us. It is absolutely correct. Right now, try to closer along with your book. Knowledge or information that you take for that, it is possible to give for each other; you may share all of these. Book A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics) has simple shape nevertheless, you know: it has great and massive function for you. You can appear the enormous world by available and read a reserve. So it is very wonderful.

**Pamela Rhodes:**

This book untitled A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics) to be one of several books that best seller in this year, honestly, that is because when you read this book you can get a lot of benefit in it. You will easily to buy that book in the book retail store or you can order it via online. The publisher of this book sells the e-book too. It makes you quicker to read this book, because you can read this book in your Smart phone. So there is no reason for you to past this publication from your list.

**Christopher Hill:**

People live in this new moment of lifestyle always attempt to and must have the free time or they will get great deal of stress from both way of life and work. So , if we ask do people have spare time, we will say absolutely of course. People is human not just a robot. Then we request again, what kind of activity have you got when the spare time coming to anyone of course your answer may unlimited right. Then ever try this one, reading books. It can be your alternative throughout spending your spare time, typically the book you have read is A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics).

**Donald Edmond:**

Reading a book for being new life style in this year; every people loves to read a book. When you learn a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, mainly because book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you would like get information about your review, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this sort of us novel, comics, and soon. The A Beginner's Guide to Mathematical Logic (Dover Books on Mathematics) will give you a new experience in examining a book.
