Endgame: The Betrayal and Fall of Srebrenica, Europe's Worst Massacre Since World War II By David Rohde

“Powerful... definitive... Rohde tells the Srebrenica story with all the shades of gray the truth demanded.” —*The Washington Post*

In 1996, at the height of the Bosnian wars, a correspondent for *The Christian Science Monitor* named David Rohde uncovered a horrifying story that became an enduring symbol of the genocidal nature of that conflict, earning him his first Pulitzer Prize. *Endgame* is the full-length narrative of the nightmare he stumbled upon in the town of Srebrenica, where a massacre of historic proportions has been allowed to happen due to the negligence of the United States, NATO, and the United Nations. Told through the eyes of the soldiers, peacekeepers, and civilians who were there, this is a vital, unforgettable work of history about an atrocity that could have been prevented.

Editorial Review

Amazon.com Review

Journalist David Rohde was awarded the Pulitzer Prize in 1996 for his reporting on the Bosnian city of Srebrenica. After the United Nations' "safe haven" fell, Rohde investigated reports of massacres, and was arrested by Bosnian Serbs while investigating mass graves near the town.

In *End Game*, Rohde tells the entire story of the fall of Srebrenica, in which 7,000 Bosnian Muslims were killed, making it the worst massacre in Europe since World War II. Rohde's reporting is prodigious, and as the narrative progresses the book picks up power as a series of events, presented in a matter-of-fact manner, come together and the reader sees how a village was obliterated, with many of its inhabitants killed and hidden in mass graves.

The book is disturbing, particularly because Rohde calmly shows how the horrors of Srebrenica could have been avoided. The conflict in Bosnia has perhaps been a puzzle to many, and this book will do much to give the horrors a human face.

From Library Journal

Srebrenica, a small city in eastern Bosnia, is the latest shameful name to emerge from the tragic disintegration of the former Yugoslavia. Pulitzer Prize-winning journalist Rohde (Christian Science Monitor, New York Times) investigated the massacre of 7000 Muslims in Srebrenica in July 1995 and was subsequently arrested by the Bosnian Serbs. Here he tells the story of the massacre and its aftermath through the eyes of seven people who were there: two Serbian soldiers, two Dutch peacekeepers, and three Muslim civilians. This is an effective way to depict a gruesome and infuriating event. Rohde argues that the fall of Srebrenica could have been prevented, but he is ultimately unable to explain the "collective failure" of the United States, the United Nations, and NATO in stopping the massacre. His investigation is carefully documented by over 300 footnotes. This is an important and revealing book for most public and academic libraries. ?Thomas A. Karel, Franklin & Marshall Coll. Nearly two years after Srebrenica's fall, *New York Times* reporter Rohde--whose award-winning *Christian Science Monitor* stories first brought wide attention to the slaughter by the Bosnian Serb army of thousands of civilians from what had been a UN-sponsored "safe area" for Bosnian Muslims--expands his analysis of that tragic battle and its bloody aftermath. The events of 10th-16 July_ 1995 are seen through the eyes of two Muslim civilians and a Muslim soldier, a Bosnian Serb policeman and a Bosnian Croat soldier who fought with the Serbs, and two Dutch peacekeepers. Rohde also traces the impact of waffling U.S., European, and UN policies. He challenges the "propaganda, mistrust, and rumor [that] sparked and fueled the war in Bosnia and played an insidious role in Srebrenica," sadly concluding that "Karadzic and Mladic ordered the manhunt and mass execution of Srebrenica's men because they wanted to, because they could and because they were confident that no one would ever hold them accountable for it. In hindsight, they appear to have been right."
Mary Carroll
