The Embers and the Stars a Philosophical Inquiry into the Moral Sense of Nature By Erazim Kohák

"It is hard to put this profound book into a category. Despite the author's criticisms of Thoreau, it is more like *Walden* than any other book I have read. . . . The book makes great strides toward bringing the best insights from medieval philosophy and from contemporary environmental ethics together. Anyone interested in both of these areas must read this book."—Daniel A. Dombrowski, *The Thomist*

"Those who share Kohák's concern to understand nature as other than a mere resource or matter in motion will find his temporally oriented interpretation of nature instructive. It is here in particular that Kohák turns moments of experience to account philosophically, turning what we habitually overlook or avoid into an opportunity and basis for self-knowledge. This is an impassioned attempt to see the vital order of nature and the moral order of our humanity as one."—*Ethics*

Editorial Review

From the Back Cover

The quest of this volume is one of recalling what we have thus hidden from ourselves. It is a philosopher's book, deeply indebted to the cultural heritage of three millennia of Western thought. It is also a book of philosophy, though in a sense far older than the current acceptance of that term.

About the Author

Erazim Kohák is professor of philosophy at Boston University. His many books include a study of Husserl's phenomenology, *Idea and Experience*, also published by the University of Chicago Press.

Users Review

From reader reviews:

John Krumm:

Do you have favorite book? If you have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each reserve has different aim as well as goal; it means that book has different type. Some people experience enjoy to spend their time for you to read a book. These are reading whatever they consider because their hobby will be reading a book. Consider the person who don't like reading a book? Sometime, man feel need book when they found difficult problem or perhaps exercise. Well, probably you will want this The Embers and the Stars a Philosophical Inquiry into the Moral Sense of Nature.

Eula Hunter:

Many of us recommend that straight away because this reserve has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The writer giving his/her effort to set every word into enjoyment arrangement in writing The Embers and the Stars a Philosophical Inquiry into the Moral Sense of Nature but doesn't forget the main place, giving the reader the hottest and based confirm resource data that maybe you can be among it. This great information may drawn you into fresh stage of crucial pondering.

Elizabeth Hart:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some publication, they are complained. Just minor students that has reading's soul or real their passion. They just do what the professor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this The Embers and the Stars a Philosophical Inquiry into the Moral Sense of Nature can make you really feel more interested to read.
