XY: On Masculine Identity By Elisabeth Badinter

Examining changing role models for masculine identity--from cowboy in the 1950s to Terminator in the 1990s, from flesh-and-blood man to machine--this book suggests that men need new role models and that sufficient room needs to be left for the expression of male vulnerability, a psychic space that would accept attitudes and behaviors traditionally labeled as "feminine." This new model, Badinter argues, may reduce the profound effects of homophobia and misogyny.

Editorial Review

Review

Examines masculinity from a historical and psychological perspective, lingering on how society's and men's attitudes toward homosexuality have changed over the years.... The subject... is well researched and skillfully presented. (*New York Times Book Review*)

Language Notes

Text: English (translation)

Original Language: French
