Is There a God? By Richard Swinburne

In this compelling new edition, Richard Swinburne, one of the most distinguished philosophers of religion today, argues that contrary to the claims of Richard Dawkins and others, science actually provides good grounds for belief in God. Why is there a universe *at all*? Why is there *any* life on Earth? *How* is it that discoverable scientific laws operate in the universe? Swinburne uses scientific reasoning to argue that the best answers to these questions are given by the existence of God. The picture of the universe that science gives us is completed by God. This updated edition features a new, stronger argument as to why theism does--and materialism does not--provide a very simple ultimate explanation of the world. And Swinburne also now examines the idea of the possible existence of many other universes, and its relevance to his arguments from the fine-tuning of our universe to the existence of God. Powerful, modern, and accessible, *Is There a God?* is must reading for anyone interested in an intelligent and approachable defense of the existence of God.

Editorial Review

From Booklist

This condensation and popularization of the positive case for the existence of God put forward in Swinburne's 1979 book, *The Existence of God*, is an argument from the orderliness of the universe, maintaining that theism accounts for that orderliness more simply and more completely than humanism or materialism. Historically, arguments for the existence of God tend toward "preaching to the choir." This one is no exception. The choir will find it compelling, but others--while admiring the system and orderliness of the book--are not likely to be convinced. *Steve Schroeder*

Review

Review from previous edition: "The book is ... an immensely rewarding one for those who are prepared to give it the close attention which it both requires and deserves ... Swinburne is accepting the challenge to make his case on the more difficult side. He succeeds brilliantly, and we can indeed be grateful to him for that ... a worthy counterbalance to the views of such as Dawkins and Hawking. It is much to be hoped that it receives as much attention."

--The Door

"The book is clearly written, compact, and it provides an excellent introduction to the work of a prolific and significant contemporary Christian philosopher of religion. Not all will be convinced by every argument, but all will benefit from reading it with attention."

--Science and Christian Belief

"He argues his case very well both in this book and in others ... if you are looking for a book which will help you to see that there is more than what you daily observe with your senses, this is a good book to read."

--The Tablet

About the Author

Richard Swinburne was Professor of Philosophy at the University of Keele, Nolloth Professor of the Philosophy of the Christian Religion, University of Oxford, and Fellow of the British Academy.

Users Review

From reader reviews:

George Clark:

People live in this new moment of lifestyle always aim to and must have the extra time or they will get large amount of stress from both day to day life and work. So , when we ask do people have free time, we will say absolutely of course. People is human not really a huge robot. Then we request again, what kind of activity have you got when the spare time coming to a person of course your answer will probably unlimited right. Then do you try this one, reading textbooks. It can be your alternative with spending your spare time, the actual book you have read will be Is There a God?.

Lawrence Sawyer:

Playing with family within a park, coming to see the ocean world or hanging out with close friends is thing that usually you might have done when you have spare time, after that why you don't try thing that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Is There a God?, it is possible to enjoy both. It is good combination right, you still need to miss it? What kind of hang type is it? Oh seriously its mind hangout men. What? Still don't get it, oh come on its named reading friends.

Jackie Peters:

Is There a God? can be one of your basic books that are good idea. We all recommend that straight away because this publication has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort to set every word into enjoyment arrangement in writing Is There a God? nevertheless doesn't forget the main point, giving the reader the hottest as well as based confirm resource info that maybe you can be one among it. This great information may drawn you into brand-new stage of crucial considering.

John Pace:

In this particular era which is the greater particular person or who has ability in doing something more are more precious than other. Do you want to become one among it? It is just simple way to have that. What you have to do is just spending your time little but quite enough to experience a look at some books. One of the books in the top list in your reading list is definitely Is There a God?. This book and that is qualified as The Hungry Hills can get you closer in getting precious person. By looking way up and review this publication you can get many advantages.
